## D. HECHINGER & CO

We are just beginning to realize what a splendid business stroke it was when we added our Men's and Boys' Shoe Department to our business. We soon discovered that in Shoes it is precisely like in Clothing—our people want the best. We are now out agents for three houses that sell with the *TRADE*—the *Woolworth* Fair of Shoes, the *Mayne* back of which they do not prove good. The *Hanan* & Son, W. L. Douglas and the *Walk Over* are *OUR LEADERS*. If you are not posted as to the reputation of these manufacturers, inquire of those who are. The information you will gain will bring you to us for Shoes. We need say but few words in reference to our present stock of

**CLOTHING HATS AND FURNISHINGS**

The crowds that flock to our store to do their dealing clearly indicates that our merchandise and prices are "right." We are offering some rare bargains in Children's and Boys' Clothing. Mothers who want to dress the youngsters in good, dependable Clothing, and at the same time not delve too deep down into the pocket-book, will surely look at our stock before making purchases. Our stock of Neglige Shirts in *Percale*, *Madras* and kindred fabrics is so large and varied that you cannot fail to be pleased.

## PUBLIC LEDGER

NOTICE: SUNDAY, JULY FOURTH, THANKSGIVING'S AND CHRISTMAS.

Thomas A. Dally

OFFICE—Public Ledger Building, No. 10 Broad Street, New York, N.Y.

SUBSCRIPTIONS—IN ADVANCE.

One Year \$6.00

Two Years \$12.00

Three Years \$18.00

DELIVERED BY CARRIER.

Postage to Collector at end of Month.

The Weather Clerk will please take notice that Mayville is on the map, and send us at least one fair Memorial Day in ten.

ABOUT the only things that the visiting Elks didn't seem to want was Mayville's muddy roads—Second Canal in several places being nearly ankle deep, caused by idiotic "sprinklers."

MAYVILLE will next year have an income of \$49,012.91, of which \$36,348.02 will be from direct taxation. Of this amount \$7,500—probably more—will be thrown away on the so-called streets. An annual expenditure of \$4,000 would secure sure-enough streets; and the saving in thirty years would pay the principal of a \$100,000 bond issue necessary to build the streets.

THE people of South Carolina are to be asked to decide which man more fairly represents the South Carolina Democracy, Senator MC LAURIN or Senator TILLMAN. As a result of a joint debate both men have resigned from the Senate, and will stand before the people to determine which one fairly represents the voters; and the results will be awaited with interest, as it will show whether South Carolinians are wedded to the dead past or whether they desire to join the great army of progress.

JUDGE JAMES P. GREGORY of the Jefferson County Court has ruled that electric railways were not contemplated in the Kentucky Statutes which provide that railways may condemn a right of way in case they are unable to purchase it. Of course not; for when the statute-makers built that statue such as an electric railroad was considered a "damned barrel ideally." In this era of progress it's hard to provide for all the improvements which may develop. Now let the Legislature amend the statute.

Mr. O. G. Layton of Lee street, through his attorneys, Messrs. A. E. and A. D. Cole, yesterday filed suit against the city of Mayville to recover \$10,000 damages for injuries received in a fall on the street the 6th of last February.

**Y.M.C.A.**

Sunday afternoon at 4 o'clock Rev. Dr. Molloy will speak to men at the Y. M. C. A. The members are especially invited to be present.

The local Basket Ball team expects to have a game with the Cincinnati team on the home field in the near future.

### HOW IT IS DONE.

The first object in life with the American people is to obtain a good education and good health. The first can be obtained by energy, honest and saving; the second (good health) by using good food, exercise, and a dependent son from any of the effects of Dyspepsia, Liver Complaint, Appendicitis, Indigestion, etc., such as Nick Wood, Professor of the Homeopathic Hospital, and President of the Head, Nervous Prostration, Two Doctors, etc., you need not suffer another day. Two doctors will tell you that you can't live here and get a sample bottle free. Regular size 75 cents. Get Green's Fine Almanac.

Notwithstanding the many advances in

# DIAMONDS!

Our prices are unchanged. We could go into the markets today and sell our Diamonds at wholesale at prices we are retailing them for. We prefer to give the people here the benefit of the LOW prices we are offering them for.

# FINE WATCHES!

The Trusts are gradually going after the watch factories; therefore, a word to the wise is sufficient. Now is the time to buy a Watch and we are the people to buy from. Come let us show you how cheap we will sell you a good Watch.

# MURPHY JEWELER

People used to say: "Oh, I never pay any attention to advertisements; they never tell the truth." Now it is different; people do read advertisements and they believe them. Advertisers are becoming more careful and more scrupulously truthful every day. I know a firm of advertising agents who also own a medicated soap. I said: "It's really such a wonderful thing, and do you take the care you say you do in making it?"

The answer was: "Of course it is a good thing. We have seen too much of advertising to be fooled enough to spend money pushing a poor article."

Most all advertisers understand this nowadays, and that is why advertising pays better than it used to.

The best place to put an advertisement is in the paper that enjoys the confidence of the community.

There is another thought which never occurred to me, but which was conveyed in a remark recently made to me by Mr. M. M. Gilliam, the advertising manager at Wanamaker's. He said:

"A sleepy paper gathers a sleepy constituency. An alert, wide-awake, progressive sheet gets readers who like that sort of thing—or lifts them to its level."

Wide-awake people are the ones most influenced by advertising. It is the people who are not afraid of a new thing or a new idea; people who believe in the paper they read because they have learned to rely on it.

Depend upon this. If the editorials carry weight the ads. will pay. Put your trust and your money in that sort of paper.

Occasionally an advertisement will fall flat. The wise man looks for the reason. He doesn't say blindy "Advertising doesn't pay." He looks at the paper, the date, the weather, at the goods and the price and the way the ad. was worded.

This is certain: A readable ad. in a readable paper, but by a sufficient number to make the ad. pay if the goods are right.

No doubt about it whatever.

It's sure as sunshine.

A cloudy day comes sometimes, but it doesn't stay long.

Officers in Charge of the Prisoners Were Overpowered and Compelled to Assist the Mob.

Hall was a man of considerable intelligence—his wife was a genuine. The particulars very meager.

Altheas, Cal., June 1.—Calvin Hall and his three sons, Frank, Jim and Martin, and Dan Yantis, who had been stealing horses for years, were arrested and charged with horsestealing. A mob of 40 mashed men took them at 1 o'clock and hung them to a bridge near Lookout. The officers in charge of the prisoners were overpowered and compelled to assist the mob. The mob was arrested within five minutes. The bodies were hung during the noon hour. Sheriff Street and District Attorney Bonney and Reporter Dean have gone to the scene of the hanging.

Lookout, the scene of the lynching, is in the Hot Springs valley, on Platt river, about 15 miles from the county seat of Modoc county. There is no telegraphic communication with the valley, and the news of the lynching was brought to Alturas by a courier. Particulars are, therefore, very meager.

#### The Bodies Cut Down.

The bodies have been cut down. The mob, however, were not content. They are on their way to the scene of the lynching. Hall was a man of considerable intelligence. His wife was a squaw.

Frank Hall, it is reported, made such strong resistance that the mob, having cut down the bodies, took them under a small bridge crossing a deep slough. The others were taken to the main bridge and Calvin Hall the father, was hanged on the north side and Yantis and the other Hall boys were hanged on the south side of the bridge. The body of Hall, whose discovery was discovered, was telegraphed to the district attorney and sheriff at Alturas, and they, together with the coroner, are now on the way to the scene of the tragedy to hold an inquest.

### CUBANS DISAPPOINTED.

Surprised Over Administration Decision Not to Accept the Cuban Constitution as Adopted.

### APPLICATIONS REJECTED.

Two Men, Representing Themselves to Be Filipinos, Applied to Mr. Choate for Passports.

London, June 1.—Two men, representing themselves to be Filipinos, called at the United States embassy and made application to Mr. Choate for passports. The two men declined to issue, giving as a reason that they furnished him with no evidence that they were American citizens.

The applicants persisted, and Mr. Choate then assured them that it was his opinion that they were not Filipinos. As they also pointed out that in order to avoid a possibility of rejection the majority had been changed at the last moment by striking out the interpretation at the end of the clauses and putting these in the form of a resolution, themselves, thus accepting the Platt amendment as passed by congress.

Both delegates expressed regret that misunderstanding had arisen and said they doubted that the convention would not accept the resolution as it stood. The two men, however, had been won by only one vote, and those who had tried to do their duty toward our country had been bitterly assailed as traitors and perfomers.

#### Machinists Resume Work.

Providence, R. I., June 1.—The 230 striking machinists of the Providence Engineer Co. returned to work in pursuance of their agreement with the company. They had been engaged the previous day, and after three months will receive the advance in wages.

#### The Bismarck Monument.

Berlin, June 1.—The Bismarck monument committee formally announced the postponement to an indefinite date of the ceremony of unveiling the statue of Bismarck erected in front of the railroad station, which had been fixed for Monday next.

#### murdered.

Chicago, June 1.—Orlando E. Miller, a Chicago physician, fled a suspension in bankruptcy, scheduling an indebtedness of \$587,000, with no assets, giving his indorsement to notes caused the bankruptcy.

#### Visible Supply of Cotton.

New Orleans, June 1.—Secretary Heaton's statement of the world's visible supply of cotton shows a total of 3,600,000 bales, 2,750,000 last year, of which 2,160,164, against 1,726,366 last year, figures as American.

#### Paliters For the Week.

New York, June 1.—Failures for the week numbered 148 in the United States, against 160 last year, and 27 in Canada, against 20 last year.

#### Negees Hanged For Murder.

Baltimore, June 1.—Wiley Kirk, colored, 18 years old, was hanged at Towson, Baltimore county, for criminal assault on a white woman.

### EXTREMELY WEAK.

Mrs. McKinley Is Very Seriously Ill, and Fails to Gain in Strength—A Desult.

Washington, June 1.—Mrs. McKinley failed to show any improvement during the day, and Friday night her condition is reported as unchanged from that of the previous day. She fainted during the morning. One of the grave features of the case is the fact that she continues extremely weak and fails to gain in strength. She is very seriously ill, but has had severe attacks of illness heretofore, and this gives rise to hope that she will yet gain improvement. No bulletin was issued Friday night, and none will be until after the consultation of the physicians. Both doctors, Sternberg and Bixby, called during the evening at different times, the latest with the patients for some time.

Del Monte, Cal., June 1.—Dr. Hirshfelder Friday denied absolutely a report from Washington that the San Francisco physicians had stated that Mrs. McKinley can not recover.

San Francisco, June 1.—Clinton Copeland, one of the physicians who attended Mrs. McKinley during her illness in this city, denied Friday the report that the local physicians had said that their patient was fatally ill. Dr. Cushing declares that he and his associates are not to be held responsible for Mrs. McKinley's return home, this was her inclination, her physicians, knowing that she was a good traveler, foresaw no danger in the trip.

### TILLMAN AND MCLAURIN.

Gov. McSweeney Refused to Accept Their Resignations as Senators From South Carolina.

Columbia, S. C., June 1.—Gov. McSweeney Friday, acting in accordance with the wishes of the people, who did not wish a primary with its incident strife and unrest, refused to accept the resignation of Senators Tillman and McLaurin. Their resignations were announced as a political meeting in Gaffney, May 25.

He wrote a communication to the senators, in which he said at first that he "returned their resignations for further consideration." In the closing paragraphs of his letter, however, he accepted the resignations.

His reasons may be put in a few words. A canvass between them would result in bitterness, stir up the people just at a period when they are trying to get together for the material progress of the state, and would be a campaign of personalities instead of education.

### THE STORM IN TEXAS.

Great Damage Was Done to All the Crops, Especially Fruit, Over a Wide Area.

Houston, Tex., June 1.—A heavy rain and hail storm covered a wide area Friday morning, and great damage was done to fruit and vegetable crops throughout the state, especially in the fruit belt of Eastern Texas. The wind was affected to a greater extent than any other section. A special from Longview says hall was 20 inches deep in places, and much damage was done. A special from Palestine says the damage to property inside the city and to the crops in the surrounding country.

The applicants persisted, and Mr. Choate then assured them that it was his opinion that they were not Filipinos.

As they also pointed out that in order to avoid a possibility of rejection the majority had been changed at the last moment by striking out the interpretation at the end of the clauses and putting these in the form of a resolution, themselves, thus accepting the Platt amendment as passed by congress.

Both delegates expressed regret that misunderstanding had arisen and said they doubted that the convention would not accept the resolution as it stood.

They also pointed out that the victory had been won by only one vote, and those who had tried to do their duty toward our country had been bitterly assailed as traitors and perfomers.

### MUSICALE AT HAYSWOOD.

That Institution's Music Department's Closing Exercises.

Last night at Hayswood, that flourishing institution gave its annual entertainment to its friends and patrons, who were enough to turn the full capacity of the large parlors and hall, and a more pleased audience could not be imagined at that very beautiful school home.

The program was a lengthy one by reason of the numerical strength of the class.

A composite glance at those who performed will give a good impression from every side of the musician's point of view, and reflects great credit upon the very capable instuctress, Miss Moore, who presides over this department.

Last night's entertainment was the first in a series which mark the closing exercises for this scholastic year.

Tomorrow night Rev. Mr. Creo will preach the baccalaureate sermon in the First Presbyterian Church.

The Indians will be up tonight for Powwow.

The Courier will be down for Cincinnati tonight.

The Queen City will pass up tonight for Pittsburgh.

The Acorn lost 3 loaded boats at the Wadsworth and the John W. Ailes 1 boat at Sewickley Thursday.

One of the pleasant features of river travel nowadays is every boat is equipped with a splendid orchestra, while the bills of fare are not equalled anywhere.

The shipment of coal down the river during the present rise, including the shipment made during the large stage Thursday from Pittsburgh, amounted to almost 10,000,000 bushels.

On Wednesday the Greyhound got up steam, and it was understood that she was to be tested. From a reliable source comes the information that she will be used in a short trade out of Cincinnati, presumably the Chilo trade.

The Government's lighters, carrying the coal at the rate of 100 carloads from \$5 to \$15 a month. Some have only one light to stand to, while others have two, three, four and five. Four times a year the light-tender steamers make the trips in their respective districts, supplying the tenders with oil, wicks, candles, matches and paying salaries to the engineers.

The lighters are plying every night when the nights are pleasant, and lighting the lamp is a chipping task, but every night, though the river rage and the wind blow and lighting lamps in such a storm is exposure to personal danger.

Word has been received from Parkersburg regarding the steamer Wheeling, which left Middleport last Friday afternoon, with a view to finding a new destination. The vessel is to be converted into a freighter, and her builder, Captain Asa Booth, has been complimented upon the work which is repeated to be a model of its kind. The machinery, which was designed with a view to creating a revolution in the machinery of steamboats, has been admirably done, and the new steamer arrived at Parkersburg, a distance of ninety-six miles from Middleport, late Tuesday on one wheel. The machinery, one had broken down. She was four days making that port. At present she is at Marietta and the brooks, and is to be converted as soon as possible. The majority of the river men have never placed any confidence in the machinery of the boat.
